

Case Study

SFIA Educational Trust

Sponsor of the Arkwright Scholarships

“SFIA Educational Trust are increasingly impressed by the high calibre of students coming forward”

Anne Feek, Chief Executive
SFIA Educational Trust.

SFIA sponsored their first two Scholars in 1993 and have since that time given annual support to 30 Scholars with a further 4 Awards being made in September 2003.

The Trust sees the benefits of the Arkwright Scholarships Trust as being

- A means to stimulate high ability sixteen year old students interested in an engineering / design or technological career.
- A worthwhile scheme, as it not only encourages boys and girls from both maintained and independent schools, but also prepares these young people for the future with the experience they gain in the selection and award process.
- A raised profile for Design and Technology in Schools.
